Acknowledgement

In successfully completing this project, many friends have worked together to accomplish this project. Primarily, we would like to thank Allah for helping us completing this project with success. Then we would like to express our special thanks of gratitude to our greatest professor Najeeb Al-Bazeli, under whose guidance we learned a lot about this project. His suggestions and directions have helped in the completion of this project. We must also show great and special thanks to Al-Nasser University's staff members for their immense support and help during this project. Without their help, completing this project would have been very difficult.

Synopsis

Problem Statement

Chic Lighting & Design has its presence since 1971. We offer unique lighting and accessories from the most elegant traditional to refined contemporary for today's eclectic interiors.

Chic Lighting & Design is an online retailer that specializes in LED Lights, Lamps, Chandeliers and Pendant lighting. We have a range of collections that include; crystal chandeliers, traditional chandeliers, modern chandeliers, glass pendant lights, industrial and retro pendant lights, metal pendant lights and many more.

At Chic Lighting & Design, we are dedicated to customer service. When you call or email during normal business hours, you will speak or get reply from a design professional. Our knowledgeable and experienced staff receives ongoing education and training and is available to assist with all of your lighting projects.

You are supposed to create a Single-Page-Application and responsive Website for them with the below mentioned requirement specifications.

The website should work well in all leading browsers including Chrome, IE, Firefox etc.

Requirement Specification:

The portal will be designed as a Single-Page-Application and responsive Website with a set of pages and menus that represent choice of activities to be performed. The pages, menus, and other visual elements must be designed in a visually appealing manner with attractive fonts, colors, and animations.

1. The Top of the Page should be presented with a suitable logo and images of Lights & Chandeliers.
2. The site must contain the various sections such as
3. Section on LED Lights should be provided with various products listed such as Spot Lights, Decoration Lights, Smart Lights etc.
4. Specification and Pricing of Lights should be added along with the images.
5. A menu on the Top with all sections listed should be provided.
6. Website should provide section filter for various brands offered in the store

8. Gallery section should be added for viewing different images.
 9. Site map, Gallery, About us, FAQ link, Contact us must be added.
 10. The complete description must be allowed to get download as pdf or doc file.
 11. Section for various offers in the store should be provided with listing of offers with details.■
- Display a continuous scrolling ticker at the bottom of the page with current date, time, and location (hint: Use geolocation features of HTML5).
 - Display a visitor count at the top right corner of the page beside a logo image.
 - The menu options should change color on hover and also after clicking.
 - Fade in and fade out options can be used for the menus.

Hardware

- Intel Core i3/i5 Processor or higher
- 8 GB RAM or above
- Color SVGA
- 500 GB Hard Disk space
- Mouse
- Keyboard

Software

Technologies to be used:

- Frontend: HTML5, CSS, Bootstrap, JavaScript, jQuery, AngularJS, XML
- Data Store: JSON files or TXT files

Analysis

Plan:

- Reading and understand the problem statements.
- Creating a suitable logo, and choosing attractive colors.
- Designing the website.
- Divide work over team members.
- Coding the website.
- Linking the pages.
- Implementation the code.
- Testing the code.

Tools:

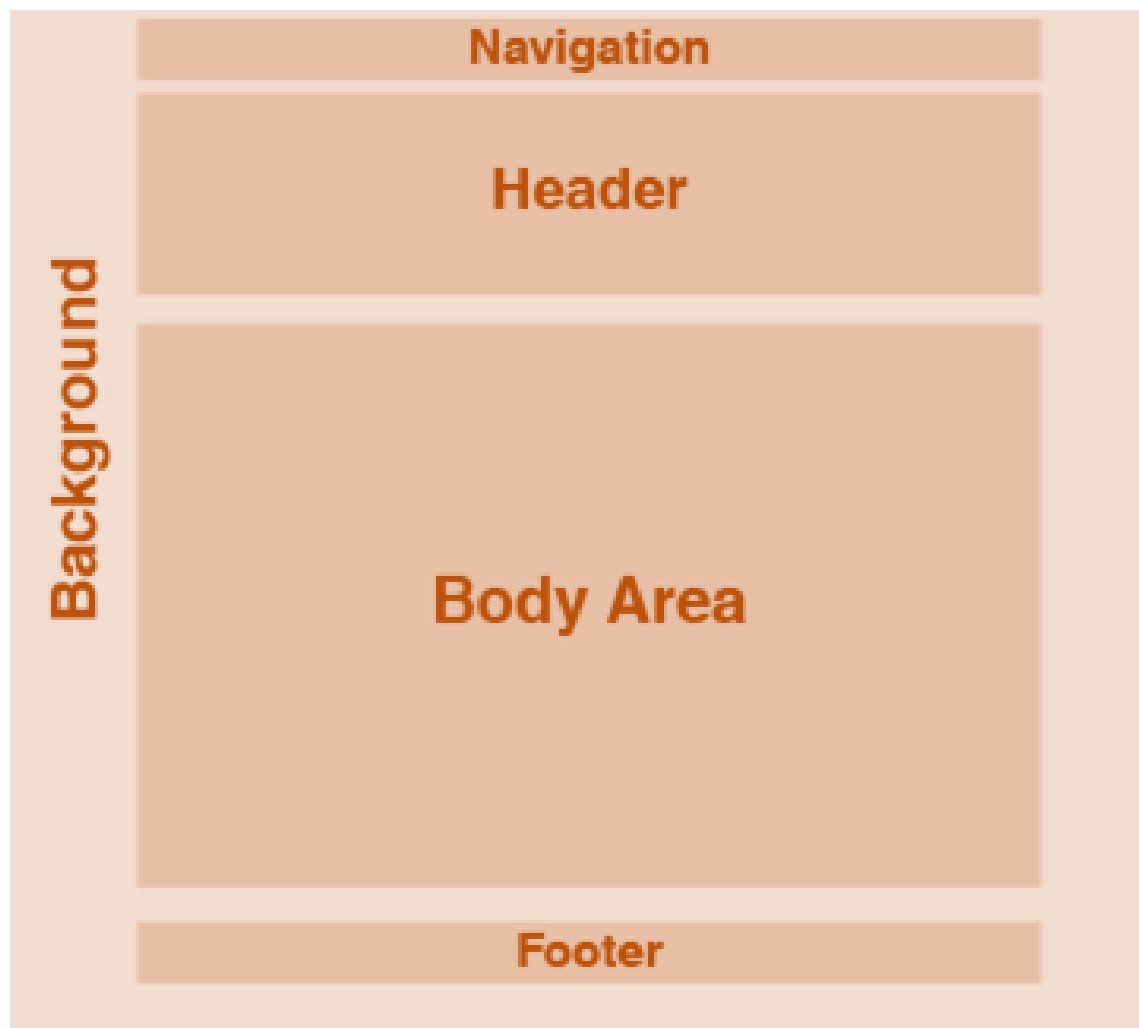

- **Visual Studio Code:** is a lightweight but powerful source code editor which runs on your desktop and is available for Windows, macOS and Linux. It comes with built-in support for JavaScript, TypeScript and Node.js and has a rich ecosystem of extensions for other languages (such as C++, C#, Java, Python, PHP, Go) and runtimes (such as .NET and Unity).
- **Chrome DevTools:** is a set of web developer tools that are built directly into the Google Chrome Browser. DevTools allows you to view and change / manipulate the DOM, change a page's style (CSS) in a preview environment, and work with JavaScript by allowing you to debug, view messages and run JavaScript code in the console.

Technology:

- **HTML:** it is used for giving eye catching look to the website. And also providing easy-to-use GUI.
- **CSS:** it is used to give designer look to HTML using the external file.
- **JavaScript:** it is used to create dynamically updating content, control multimedia, animate images, and pretty much everything else, and use React.js .
- **Geo Location:** it is used to identify the user's geographic location for the website.

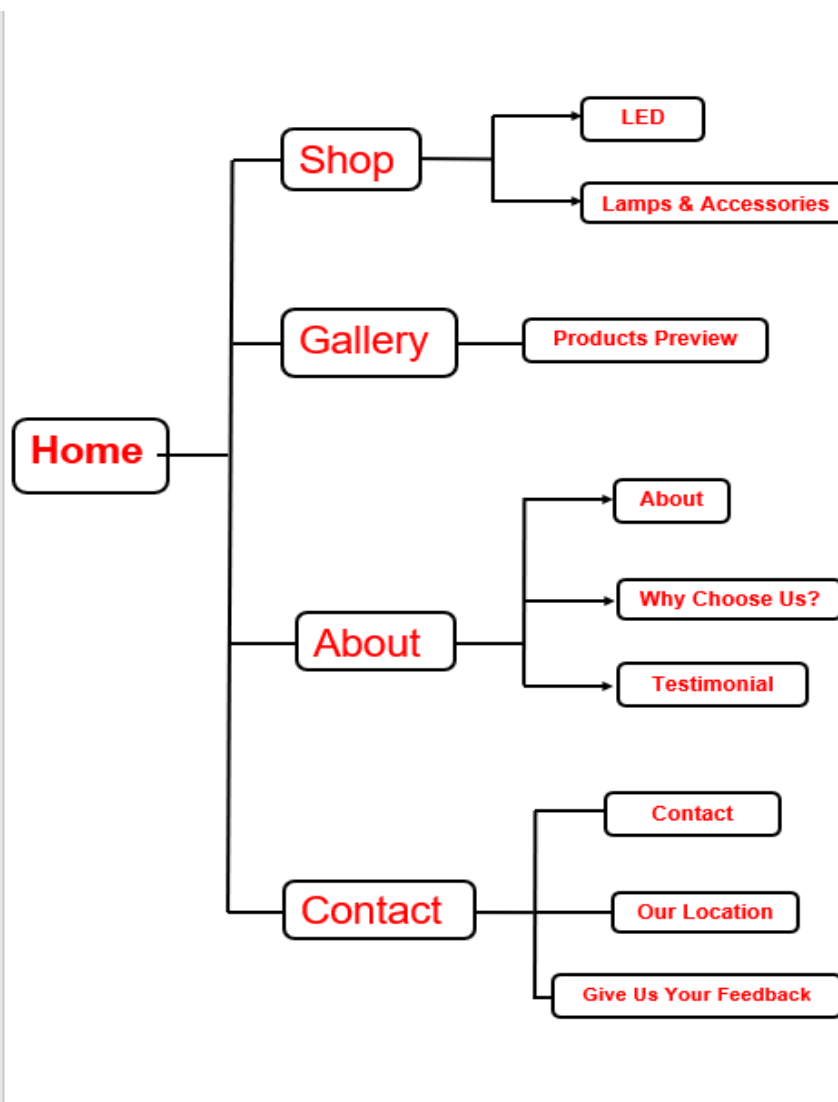

Project Design

Project Layout:

Site Map

The sample site map illustrates the navigation flow of the objects on the Web portal.

GUI MAP

Home:

The home page describes the keywords or highlight of the shop along with all navigation link defined.

About us:

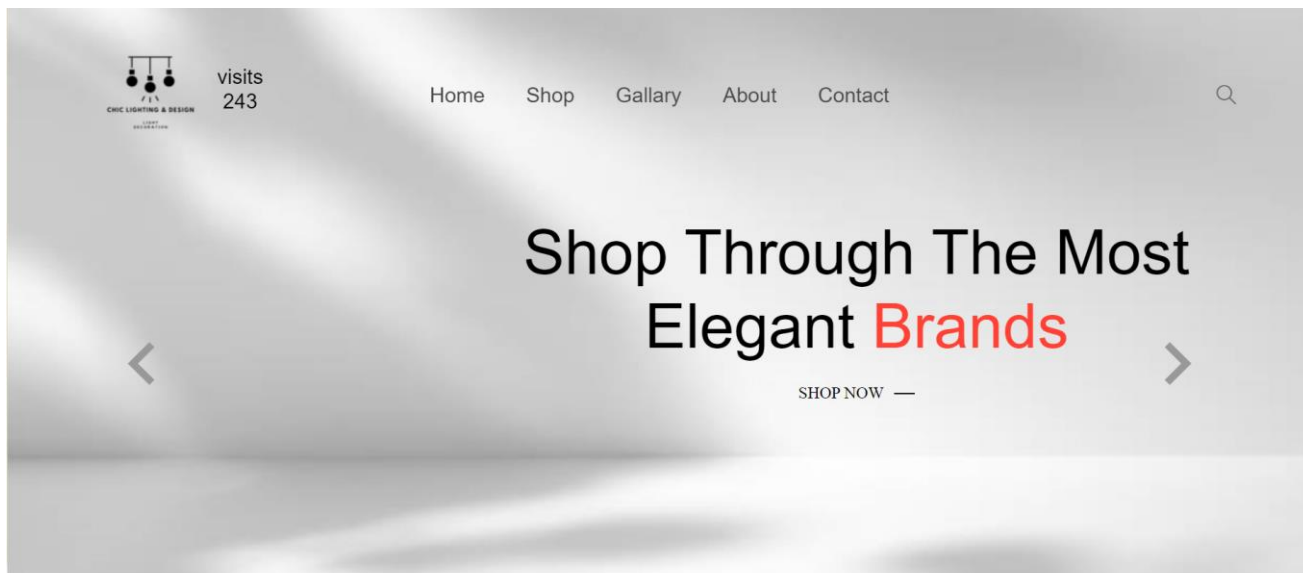

This page contains the introduction to the company and clients review about the products.

Contact us:

It is having the Address of the Company and the mail address which when clicked will invoke the local mail client from where they can send an email. Address of the Company should be displayed using Geolocation API (e.g. Google Maps).
